Selecting Location and Commodity

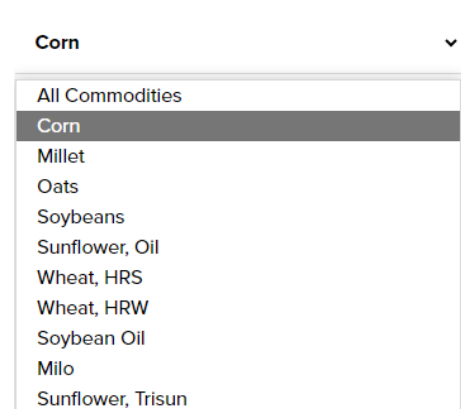

Using the drop down menu, select your town name to get the latest bids for your area **(Image 3).**

Right under the location option, drop down the commodity that you would like to view **(Image 4).**

(Image 3)

(Image 4)

Default view shows all locations and all commodities, but you can easily customize your view. The component is set up to remember your last view on a device. It will show that same view the next time you access the cash bids page on that device.

DTN Weather

DTN is now offering a new weather feature that has advanced views available through drop-down filters, visible on both your computer and phone.

To view, navigate to the full weather page on your site. A link to the full weather page can be found on the home page. Under the **Weather** section, select **View full weather (Image 1)**. There is also a link in the footer (**Image 2**) and/or in the main navigation, depending on how the site was built.
