AGRONOMY

PLACEMENT INCENTIVE PROGRAM

for Agriculture Industry and
Technology (Agronomy) Students

BISMARCK
STATE COLLEGE

North Dakota's
Polytechnic Institution

AGRONOMY INCENTIVE PLACEMENT PROGRAM

“Thank you to the Round Table event with partnering companies for helping me get my job. I may have never had the opportunity to meet my current employer without it. After two summer internships during college I landed my full-time job with Dakota Agronomy in Minot.”

- Kenzie Volochenko, BSC alumni 2019, Agronomist, Dakota Agronomy Partners

Bismarck State College, along with area agronomy companies, have partnered to provide BSC Agriculture, Industry and Technology (Agronomy) students with internship and employment opportunities, as well as tuition reimbursement through the Agronomy Incentive Placement Program.

INDUSTRY PARTNERS PROVIDE

- Guaranteed quality agriculture internship experience
- Tuition reimbursement
- A wage per hour at the upper end of market value
- Student internships with housing, vehicle/mileage and cell phone compensation by some companies
- Competitive hiring process experience for students from the BSC Agriculture, Industry and Technology (Agronomy) program

STUDENTS

To be considered “highly qualified,” students will need a GPA of 2.8 plus a recommendation from a BSC agriculture faculty member. Degree completion is required for second-year reimbursement. Personal character, participation in the BSC Agriculture Club, and professional ethics/workforce readiness are major factors in consideration.

INDUSTRY PARTNERS’ TUITION REIMBURSEMENT PLEDGE

- To provide superior internship/mentoring opportunity to students
- To grant tuition reimbursement after the successful completion of the internship for the first year of Agriculture, Industry and Technology (AIT) courses
 - \$1,250 per semester with a GPA of 3.2 or higher
 - \$750 per semester for a GPA between 2.8 and 3.199
 - \$0 if GPA is less than 2.8
- To grant tuition reimbursement for the second year of AIT courses after the successful completion of one year of employment following graduation (no period)
 - \$5,000 lump sum bonus will be paid to the student by the company with degree completion and successful completion of employment

This is an optional program. Both student and company have the right to refuse.

“Getting an internship is a priority for most BSC Agriculture students. The best way to learn what internships are out there, is utilizing the Round Table Event. I met United Agronomy LLC through this event, I am glad I did. Your future may depend on meeting with the companies hosted at the event. Trust the contacts the BSC Ag program provides, it has worked for many previous students”

– Rylan Bachmeier, BSC alumni 2019, Agronomist, United Agronomy
